## "Bulbs That Bloom" 1952

### Wholesale and Retail Price List for Winter and Spring

We express our appreciation and thanks to our customers for their patronage which has increased with each passing year.

#### PLEASE READ CAREFULLY

All stock is offered and orders accepted subject to prior sale or advance in price in which event money will be refunded.

Reference: First National Bank of Attleboro, Mass.

I exercise the greatest care possible to have every variety true to name, yet mistakes may occur, in which case upon notification I will replace free of charge or refund price paid on any bulbs that prove untrue to name.

Terms: Cash or equivalent with order. If desired 25% with order, balance before shipment or C. O. D. for Spring delivery.

All stock is graded standard sizes: 1st size, 1½ inch and up, 2nd size is 1¼ inch to 1½ inch, 3rd size 1 to 1¼ inch, 4th size ¾ inch to 1 inch, 5th size ½ to ¾ inch, 6th size under ½ inch.

Five bulbs will be sold at 10 rate, 25 at the 100 rate on No. 1, 2, and 3 sizes. At retail, one-half size bulbs will be sold at one-half regular price, but no item less than

10 cents. If price of bulbs is 10 cents, two one-half size bulbs will be sent for 10 cents. If price is 20 cents, one-half size will be 10 cents and so on.

Orders Per Each and Per 10 are retail, shipped prepaid. Orders by the 100 are wholesale. Not prepaid.

I do not substitute varieties without permission, but if out of size ordered I sometimes use larger or smaller size but give equal or better value.

My stock is limited on some varieties and sizes, but if stock is wanted in sizes not listed, write me, as I no doubt have a few and can supply you. Also, I have small lots of some varieties not listed, some of them are rare varieties. No confusing discounts offered as my low prices do not permit it.

Correspondence solicited. If you wish transportation to be paid add the amount to your remittance.

While I do not guarantee the crop, I do guarantee satisfaction. You may examine the bulbs on arrival and if not satisfactory return them at once at my expense.

## NAME OF VARIETY

A figure before prices 2-10  
2-.15 means two bulbs for .10  
or 2 for .15 as the case may be

## ABOUT THRIPS

Here we have had good results from gassing the bulbs, also from the use of Naphthalene. There is a difference of opinion about Naphthalene; some think it injures the bulbs, others do not, but for the small grower it seems to be the logical thing to use about one ounce to 100 large bulbs. Place a paper over them for a while, then take it off some 3 weeks and if the bulbs have air the flakes will not injure them.

Large owners no doubt will gas where possible. Before you plant your bulbs by all means disinfect them

—use one can of commercial lye to twenty or twenty-five gallons of water, soak ten or twelve hours. This is cheap and quite effective, but there are several preparations on the market that may be better but more trouble to use perhaps.

After the glads are up spray with two tablespoons of Paris Green and one and one-half pints of Molasses in three gallons of water or you can use Brown Sugar or Glucose. Spray as often as you can but once a week at least. There are other sprays on the market you can use if you like.

## JUST A FEW CULTURAL NOTES

The Gladioli are so easy to grow that they may be planted anywhere so long as they are in the sun—but will not do well in the shade. Don't try it.

Plant any time after the middle of April to the middle of June, in any manner that best suits your plot of ground. Plant from two to five inches deep, the larger the bulb the deeper it should be planted. It stands up better.

Now start the cultivator. The more the soil is kept stirred when not too wet the better it conserves the moisture and your plants will do better.

The Gladioli will take a lot of water at blooming time. If you are in a position to water them at this time, do so. If not they will do fairly well without by keeping the soil well stirred up.

When cutting the flowers keep as many leaves as possible on the plant to mature the bulb. Too low cutting weakens the bulb.

When digging, cut the stalk close to the bulb and dry well. When dried and cleaned, store in cellar away from the furnace. If near the furnace keep a dish of water near them.

The flower of the Gladiolus is the finest for vases for the sick room, hospital, churches, cemetery and decorations of all kinds. Use them freely.

While I make no special claim for my bulbs, every year I receive many fine letters from customers who were pleased with my stock and pleased with the service rendered. We have a large stock and ship orders promptly.

Become a member of the New England Gladiolus Society. It devotes its entire attention to the interests of the Gladiolus and growers of the same over entire country. Annual dues are \$2.00.

My Father has a very large collection of Indian Relics here that is worth going many miles to see.

They may be seen when calling here. Visitors are welcome.
